Description Key

*MATURE HEIGHT in feet: MH

*MATURE SPREAD in feet: MS

*LIGHT NEEDS: shade-LS, partial-LP, full-LF

*SOIL NEEDS: moist-SM, well drained-SWD

*GROWTH RATE: slow-GS, moderate-GM, rapid-GR

(NEW SPECIES-CAPS)

SPECKLED ALDER *Alnus rugose* Thicket forming small tree, good choice for disturbed site rehabilitation, i.e. along stream banks for erosion control. Valuable wildlife cover. MH-16, MS-20, LP, SM-SWD, GM

Black Elderberry *Sambucus Canadensis* Shrub, good for raingardens. Fruit edible to humans, pollinators MH-12, MS-12, GR, LP-LF, SM-SWD

DOMESTIC APPLE *Malus domestica* Common apple small fruit desired by wildlife. MH-30, MS-20, LS-P, SM, GR

NATIVE FLOWERING RASPBERRY *Rubus odoratus* Shrub which forms broad patches, fruit is favored by wildlife, MH-3-6, MS-6-12, LP-F, SWD, GR

Northern Pecan *Carya illinoensis* Plant in multiples to ensure pollination. Nuts eaten by squirrels, deer, raccoon, foxes, wild turkeys, wood duck, blue jays & other birds. MH-30, MS-15, LF, SM, GR

Paw Paw *Asimina triloba* Patch-forming (clonal) understory tree found in well-drained, deep, fertile bottomland and hilly upland habitat. MH-25, MS-15. LS in youth, LP-LF in maturity, SWD, GM

Blueberry highbush *Vaccinium corymbosum* Prefers very acidic soil. Shrub. Good for wooded or open areas MH-12, MS-12, LP, SM GR

Black Walnut *Juglans nigra* Home to many species w/ fruit for wildlife & humans. Can be toxic to a number of trees/plants if planted too close. MH-70, MS-20, LP-LF, SM-SWD GR

Ohio Buckeye *Aesculus glabra* State Tree. Primarily found in understory. MH-60, MS-30, LS-LP, SM GM,

Sugar Maple *Acer saccharum* Shade tree and an ornamental tree. Should not be planted in confined spaces or areas where salt is a problem. MH 60-75, MS-45, LP-LF, SM, GM-R

Serviceberry Downy *Amelanchier arborea* Fruit favored by wildlife & humans, attracts pollinators. MH-40, MS-30, LP, SM-WD, GR

White Oak *Quercus alba* Habitats ranges from dry forests/fields to woodlands/slopes. Supports wildlife species in abundance. MH-70, MS-70, LF, SWD GS-GM

Shagbark Hickory *Carya ovata* Found in wetter areas & dry uplands. Distinctive shaggy bark. Striking winter appearance MH-100, MS-40, LP-LF, SM-SWD GS-GM

Tulip Poplar *Liriodendron tulipifera* L. Desirable street, shade, or ornamental tree but the large size it attains makes it unsuited for many sites. MH-80-120, MS-30, LF, SM-WD GR

Paper Birch *Betula papyrifera* Desirable ornamental, browsed by white-tailed deer; birds & small mammals eat the buds, catkins, & seeds. MH-70, MS-25, LF, SM-WD GR

Common Lilac *Syringa vulgaris* Aromatic Spring bloom. A classic choice for around the home. MH-20, MS-10, LP-LF, SM-SWD, GM,

Bald Cypress *Taxodium distichum* Illinois Related to Giant Redwoods. Tolerant species found near wetlands. (Deciduous Conifer) MH-60, MS-25, LP-LF, SM GR

CANAAN FIR *Abies balsama ~phanerolipsis* Primarily grown as a Christmas tree but may be used as a specimen conifer in the garden. This fir is differentiated from the species by the conspicuous papery bracts protruding from the cones MH-50, MS-25, LP-F, SWD, GM

Colorado Blue Spruce *Picea pungens 'glauca'* Residential favorite/lovely blue-silver. Drought resistant once established. Acidic soils. MH-50, MS-25, GS-GM, LF, SM

White Pine *Pinus Strobus* Popular evergreen provides food and shelter for numerous forest birds, MH-50, MS-40, LP-F, SWD, GR

Norway Spruce *Picea abies* Popular windbreaks. Adaptable to harsh conditions. Prefers acidic soils. MH-80, MS-40, GM-GR, LP-LF, SM-SWD

AMSONIA Blue Star Partial shade and rich organic soil with good moisture retention, it is also tolerant of drought once established and will thrive in full sun and lean soils. Pollinators, hummingbirds, carpenter bees, hummingbird moths, and several other pollinators are also drawn to the plant.

ASTILBE False Spirea Red Raspberry Dark red scapes carry raspberry colored buds which open to rich burgundy red, triangular flower plumes in early to midsummer. As the flowers age, they turn a vibrant shade of fuchsia. Loved by pollinators, deer and rabbit resistant. MH, MS-18-20 in, LF-P, SWD

Beard Tongue *Penstemon digitalis* Hybrid herbaceous perennial with showy white tubular flowers and maroon-red leaves and stems. The flowers are born on tall stems in panicles late spring to early summer and attract hummingbirds and bees. MH, 2-3 MS, 1-3, LF, SM, Good for raingardens.

Bee Balm *Monarda didyma Petite delight* MS, MH 1-2ft, Lavender-rose flowers. Mid-late summer blooms attract butterflies and hummingbirds.

Coneflower mixed color Cheyenne Spirit (mixed) White, cream, red, pink, orange, yellow or purple ray flowers with brown disk flowers. Full sun to part shade.

Red Switch Grass *Panicum virgatum* MH-3-6 ft. Fast growing, w/ red-tipped, green leaves in spring, darken through summer, burgundy in fall. In winter, birds eat seeds.
