KEY NEW SPECIES in BOLD *MATURE HEIGHT in feet: MH *MATURE SPREAD in feet: MS *LIGHT NEEDS: shade-LS, partial-LP, full-LF
*SOIL NEEDS: moist-SM, well drained-SWD *GROWTH RATE: slow-GS, moderate-GM, rapid-GR *ATTRACTS POLLINATORS: AP *FOOD FOR WILDLIFE: FFW

BLACK ELDERBERRY *Sambucus canadensis* Fruit edible to humans. MH-12, MS-12, GR, LP-LF, SM-SWD. AP

BLUEBERRY - HIGHBUSH *Vaccinium corymbosum* Prefers very acidic soil. Good for wooded or open areas MH-12, MS-12, LS-LP, SM, GR, FFW

SUMMERSWEET *Clethra alnifolia* Popular in woodland gardens because it attracts birds and butterflies MH-5-10, MS-5, LS-LF, SM, GM

PAW PAW *Asimina triloba* Patch-forming (clonal) understory tree found in well-drained, deep, fertile bottomland & hilly upland habitat. MH-25, MS-15. LS in youth, LP-LF in maturity, SWD, GM, AP, FFW

REDBUD *Cercis canadensis* Lovely rosy pink blooms in April. MH-30, MS-35, GM, LP-LF, SWD, AP, FFW

BLACK WALNUT *Juglans nigra* Home to many species w/ fruit edible for humans. Can be toxic to a number of trees/plants if planted too close. MH-70, MS-20, LP-LF, SM-SWD GR, FFW

COMMON LILAC *Syringa vulgaris* Aromatic Spring bloom. Classic choice around the home. MH-20, MS-10, LP-LF, SM-SWD, GM, AP

OHIO BUCKEYE *Aesculus glabra* State Tree. Primarily found in understory. MH-60, MS-30, LS-LP, SM GM, FFW

PAPER BIRCH *Betula papyrifera* Desirable ornamental, browsed by white-tailed deer; birds & small mammals eat the buds, catkins & seeds. MH-70, MS-25, LF, SM-WD, GR, FFW

MUSCLEWOOD (IRONWOOD) *Carpinus caroliniana* It is noted for its interesting mature bark, mature fruits, and fall foliage colors MH-30, MS-20, LS-LF, SWD, GS, FFW

SCARLET OAK *Quercus coccinea* Acorns are an important food source for numerous upland wildlife species including squirrels, chipmunks, mice, wild turkeys. MH-70, MS-50, GS, LP-LF, SWD, FFW

SERVICEBERRY - DOWNY *Amelanchier arborea* Fruit edible for humans MH-40, MS-30, LP, SM-WD, GR, AP, FFW

SHAGBARK HICKORY *Carya ovata* Found in wetter areas & dry uplands. Distinctive shaggy bark. Striking winter appearance. MH-100, MS-40, LP-LF, SM-SWD, GS-GM, FFW

SUGAR MAPLE *Acer saccharum* Shade/ornamental tree. Avoid planting in confined spaces or areas where salt is a problem. MH 60-75, MS-45, LP-LF, SM, GM-R

TULIP POPLAR *Liriodendron tulipifera* L. Desirable street, shade, or ornamental tree but the large size it attains makes it unsuited for many sites. MH-80-120, MS-30, LF, SM-WD GR, AP

WHITE OAK *Quercus alba* Habitats ranges from dry forests/fields to woodlands/slopes. Supports wildlife species in abundance. MH-70, MS-70, LF, SWD GS-GM, FFW

BALD CYPRESS *Taxodium distichum Illinois* Related to Giant Redwoods. Tolerant species found near wetlands. (Deciduous Conifer) MH-60, MS-25, LP-LF, SM, GR

RED CEDAR *Juniperus virginiana* A large shrub or small tree that will thrive where few other woody plants will grow, serves as windbreak and erosion control MH-30, MS-15, LP-LF, GM, SWD

BLACK HILLS SPRUCE *Picea glauca var. densata* Suitable for smaller suburban lawns or hedge. MH-82, MS-12, GS, LP-LF, SM-SWD, drought tolerant.

NORWAY SPRUCE *Picea abies* Popular windbreaks. Adaptable to harsh conditions. Prefers acidic soils. MH-80, MS-40, GM-GR, LP-LF, SM-SWD

WHITE PINE *Pinus Strobus* Popular evergreen provides food & shelter for numerous forest birds. MH-50, MS-40, LP-F, SWD, GR

JERSEY KNIGHT ASPARAGUS *Asparagus officinalis* All-male variety offering cold hardiness & resistance to diseases such as root rot, rust and fusarium. High in fiber, potassium and folic acid, as well as vitamins A, B6 and C.

PURPLE PASSION ASPARAGUS *Asparagus officinalis* A 'connoisseur's selection' of asparagus w/ a refined sweet flavor (20% more sugar) becoming mildly nutty when cooked. In April and May, a heavy yield of attractive smoky purple spears is produced. They can be harvested for about eight weeks before the plants go to seed

BEE BALM *Monarda didyma* Petite delight Lavender-rose flowers. Mid-late summer blooms attract butterflies and hummingbirds. MS, MH 1-2ft,

BLUE FLAG IRIS *Iris versicolor* Vigorous perennial that forms spreading clumps, indigenous to marshes, swamps, wet meadows and other naturally moist or wet areas. Blooms purple late spring, early summer. MH-2-3, MS-2-2 1/2, LF, SWC, AP

BUTTERFLY MILKWEED *Asclepias tuberosa* Larval food plant of the queen and monarch butterflies. Blooms orange early summer-late autumn, favors sand or gravel soil; seen on stream margins/rain gardens. MH-1-2, MS-1-2, LF, AP

CARDINAL FLOWER *Lobelia cardinalis* Vibrant red perennial found in wet places, streambanks, and swamps. It is considered to be potentially toxic. MH-2-4, MS-2, LF, SM, AP

CONEFLOWER *Echinacea spp.* Mixed color Cheyenne Spirit (mixed) White, cream, red, pink, orange, yellow or purple ray flowers with brown disk flowers. LF-LP, SWD.

GREAT BLUE LOBELIA *Lobelia siphilitica* Violet blue bloom from August to October, it is short-lived, lasting only for a few years. Can be propagated. MH-4 MS-2, SWD, AP

NODDING ONION *Allium cernuum* Herbaceous perennial w/ downward nodding bell-shaped flowers bloom in July/August in pink, white or maroon. Grows in deciduous woodlands, to open grasslands & thrive in difficult sites. MH-2-3, MS-1, SWD, FS, AP,

PURPLE LOVE GRASS *Eragrostis spectabilis* Grows low to the ground in dense tufts, Blooms red, purple Aug-Oct. In late summer the fine-textured, stiff inflorescence appears like reddish-purple clouds hovering at ground level. MH-1 1/2, MS-3, SWD, LF, AP
